

THE ALABAMA DEPARTMENT OF  
CHILD ABUSE & NEGLECT PREVENTION

## 2021-2022 Evaluation Report Children First Trust Fund (CFTF) Programs

### Impact on Adult Participants

**14,075 adults** in Alabama received services through two types of ADCANP/CTF-funded programs: parent education, and home visiting. The population served were primarily parents of lower resources, based on work status, education level, and income reported. Adults who participated only in public awareness programs did not provide demographic information.

The primary funding source that provides supports to these individuals is the Children First Trust Fund (CFTF).

An independent Evaluation Team from Auburn University's Human Development and Family Science Department documented the outreach and effectiveness of these programs.

- 74%** of participants were women
- 52%** were European American/White
- 39%** were African American/Black
- 34** was the median age of the adult participants
- 44%** reported a gross income of less than \$10,000
- 44%** reported not working for pay
- 19%** reported not completing high school
- 54%** reported a high school degree/GED as their highest level of education

### Parent Education & Home Visiting

**50 parent education and home visiting programs** provided support and educational programs to parents. An assessment of 7 targeted outcomes with **2,746 participants** revealed statistically significant improvements in average scores for:

- Stress Management Skills
- Skills to Manage Maltreatment Risk
- Understanding of Various Forms of Maltreatment
- Medical Care Commitment
- Parenting Skills & Child Development Knowledge
- Knowledge of & Commitment to Use Support Services
- Use of Informal Supportive Networks

Analyses of data revealed statistically significant improvements ( $p < .05$ ) on many relevant measures of commitment, skill, and knowledge based on average scores at pre-program and post-program.

The outcomes are indicators of protective factors that **reduce the risk of child maltreatment and promote individual and family strengths.**

**ADCANP/CTF-funded programs reduced the likelihood of adults in CFTF programs engaging in child abuse/neglect and enhanced the likelihood of current and future strong and stable families.**

## Impact on Youth Participants

**6,690 youth** in Alabama in grades 3-12 were served through seven ADCANP/CTF-funded programs. These programs offered classes and mentoring services in schools and communities. Youth who participated only in public awareness programs did not provide demographic information.

All were focused on **enhancing life skills, school performance, overall well-being, and reducing risks for children of maltreatment**. Program objectives included: improved social competence, improved emotion knowledge, improved self-confidence, improved abuse awareness and resourcefulness, increased cooperative behavior, enhanced assertiveness, and avoidance of delinquent behaviors.

The primary funding source that provides supports to these individuals is the Children First Trust Fund (CFTF).

<b>17%</b>	of youth were in grade 3-5
<b>83%</b>	of youth were in grade 6-12
<b>48%</b>	of the participants were boys
<b>52%</b>	of the participants were girls
<b>52%</b>	were African American/Black
<b>29%</b>	were European American/White
<b>3%</b>	were Native American
<b>1%</b>	were Asian American
<b>7%</b>	were Bi-racial
<b>8%</b>	reported "other" when asked race
<b>14%</b>	identified as Hispanic/Latino

Analyses of data revealed statistically significant improvements ( $p < .05$ ) on relevant measures of commitment, skill, and knowledge based on average scores at pre-program and post-program.

The outcomes are indicators of the protective factor: social and emotional competence of children, that **reduces the risk of child maltreatment and promotes individual and family strengths**.

### Grades 3-5 Youth Programs

**7 youth focused programs** provided educational sessions to youth participants. An assessment of 6 targeted outcomes with **198 3rd-5th grade participants** revealed statistically significant improvements in average scores for:

- Social Skill Development
- Abuse Awareness
- Self-Confidence
- Emotion Identification and Regulation
- Enhanced Assertiveness
- Cooperative Behavior

### Grades 6-12 Youth Programs

**7 youth focused programs** provided educational sessions to youth participants. An assessment of 7 targeted outcomes with **914 6th-12th grade participants** revealed statistically significant improvements in average scores for:

- Emotion Knowledge of Self
- Emotion Knowledge of Others
- Self-Confidence
- Social Competence
- Commitment to Avoid Risky & Delinquent Behavior
- Cooperative Behavior
- Abuse Awareness & Resourcefulness
